

Commodity Credit Corporation, USDA

§ 1468.3

(b) The CCC provides a single contract and annual payments for implementation of innovative and environmentally-sound methods for addressing natural resource concerns for producers of wheat, feed grains, cotton, and rice, resulting in consolidation of payments that would have been available under the Conservation Reserve Program (CRP), the Wetlands Reserve Program cost-share agreements (WRP), and the Environmental Quality Incentives Program (EQIP). CFO participation is determined through two step process: first, the Chief, with FSA concurrence, selects CFO pilot project areas based on proposals submitted by the public; then CCC accepts applications from eligible producers or owners within the selected pilot project area.

§ 1468.2 Administration.

(a) CFO is carried out using Commodity Credit Corporation funds and will be administered on behalf of CCC by the Natural Resources Conservation Service (NRCS) and the Farm Service Agency (FSA) as set forth below.

(b) NRCS will:

(1) Provide overall program management and implementation for CFO;

(2) Establish policies, procedures, priorities, and guidance for program implementation, including determination of pilot project areas;

(3) Establish annual payment rates consistent with EQIP, CRP, and WRP payment rates;

(4) Make funding decisions and determine allocations of program funds, with FSA concurrence;

(5) Determine eligibility of practices;

(6) Provide technical leadership for conservation planning and implementation, quality assurance, and evaluation of program performance.

(c) FSA will:

(1) Be responsible for the administrative processes and procedures including applications, contracting, and financial matters, such as payments to participants, assistance in determining participant eligibility, and program accounting; and

(2) Provide leadership for establishing, implementing, and overseeing administrative processes for applications, contracts, payment processes,

and administrative and financial performance reporting.

(d) NRCS and FSA will cooperate in establishing program policies, priorities, and guidelines related to the implementation of this part.

(e) No delegation herein to lower organizational levels shall preclude the Chief of NRCS, or the Administrator of FSA, or a designee, from determining any question arising under this part or from reversing or modifying any determination made under this part that is the responsibility of their respective agencies.

§ 1468.3 Definitions.

The following definitions apply to this part and all documents issued in accordance with this part, unless specified otherwise:

Applicant means a producer or owner in an approved pilot project area who has requested in writing to participate in CFO.

Chief means the Chief of NRCS, or designee.

Conservation district means a political subdivision of a State, Indian tribe, or territory, organized pursuant to the State or territorial soil conservation district law, or tribal law. The subdivision may be a conservation district, soil conservation district, soil and water conservation district, resource conservation district, natural resource district, land conservation committee, or similar legally constituted body.

Conservation farm plan means a record of a participant's decisions, and supporting information for treatment of a unit of land or water as a result of the planning process, that meets the local NRCS Field Office Technical Guide (FOTG) criteria for each natural resource and takes into account economic and social considerations. The plan describes the schedule of operations and activities needed to solve identified natural resource problems, and take advantage of opportunities, at a conservation management system level. In the conservation farm plan, the needs of the client, the resources, and Federal, state, Tribal, and local requirements will be met.
